

HOTEL

Holiday Village Montenegro has a beach at its doorstep that spreads along 12 km of the coast and is 60 meters wide. Ulcinj region is known for characteristic, long sandy beaches with unique petty sand that feels a lot like flour, and Holiday Village Montenegro is located on the biggest of them all- Velika Plaza, or The Big Beach. The highest measured temperature of air in the summer season reaches 38°C while the average is 24°C. During the summer months sun heats up to 11.5 hrs a day. Ulcinj old town is only 5km away and its cobblestone streets are home to traditional shops, some of which have real eastern flavour, with Turkish coffee pots, silver trays and copper water jugs. Inside the walls there is a fort, whitewashed mosques and a museum full of Roman and Otoman artefacts. The hotel will open in 2018 with brand new family swim up rooms, 2 a la carte restaurants, various tennis courts, high ropes adventure park, and full size football pitch not to mention professional childcare and children facilities.

Closest airport: Podgorica (TGD) 72km
