GREENHOUSE

The over 76,000-square-foot greenhouse facility provides produce not only for Xolumado and El Dorado Royale, but also for Karisma Hotels: El Dorado Spa Resorts, Generations Resorts and Azul Hotels throughout the region. The expansive greenhouse—the first resort greenhouse in the region—celebrated its first harvest almost a decade ago and produces a variety of organic vegetables and herbs, including cucumbers, bell peppers, chilies, eggplant, tomato, cherry tomato, basil, cilantro, papaya, lemon and mint.

The fertilization process is carried out through a hydroponic system. The products that are used for fumigation are from certified organic origins, derived from plants, leaves & seeds. Tours are offered during the week complimentary to all guests.
